

WARRANTIES HAVE EXTENDED!

Every product we release, sell and develop, we want to ensure that our customer feels confident in using the product and protected by the guarantee that if the product doesn't function then the product should be replaced, repaired or upgraded.

That's why we have created a new warranty structure that will increase the warranty period on our product ranges. Our complete stocked product range has been broken up into 3 different categories that fall under 3, 5 & 7-year warranty tiers.

3 years cover - Basics, accessories, power supplies

5 years cover - MR, Multi, Rapid, other

7 years cover - Ibox, NOX, Strip

The details below outline what products are covered under this new structure. Any products not included in this structure are covered under the warranty stated at time of sale.
